

Go Green with Kawasaki and 0% typical APR Finance

Kawasaki is encouraging riders to think Green in 2010. We've unveiled an amazing suite of simple, easy ways to buy a new machine - including 0% typical APR Finance on a selection of fantastic bikes.

Low rate finance and personal contract plan purchasing are joined by an outstanding 0% typical APR finance offer on both the [Ninja ZX-6R](#) and [Ninja ZX-10R](#) as well as the [ER-6n](#), its [ER-6f](#) sibling plus the streetfighter styled [Z750](#).

Starting at an amazingly low minimum £99 deposit, **Go Green Zero** is sure to attract a huge number of riders waiting for that first glimmer of good biking news in the New Year.

The good news for those thinking of a new set of wheels does not stop there – far from it. Kawasaki's three pronged Green attack continues with a low rate finance offer under the **Go Green Low** banner that includes every single bike in the new road bike range! (subject to status), along with a brand new web site at www.kawasaki-finance.co.uk where bikers can see what's on offer and even calculate their repayments based on their desired deposit.

Kawasaki's third "Green" choice is a PCP personal contract plan called **Feelgood**. Available on selected sports tourer and cruiser motorcycles, it allows owners to ride and replace their new Kawasaki at regular, planned intervals.

Speaking about Go Green, Kawasaki's Sales and Marketing Manager for the UK, Michael Johnstone was enthusiastic about the huge choice and variety on offer right at the start of the new biking season.

"Our motorcycle range for 2010 is the strongest it has ever been. This is now matched by the ease with which riders can get on a brand new bike. With a massive three years to pay, **0% typical APR finance** and only £99 deposit, we are sure that Go Green Zero, like the other offers available now at Kawasaki dealers, will make buying a Kawasaki even more affordable in the weeks and months ahead".
